General Information

What is the purpose of Schedule ICR?

Schedule ICR, Illinois Credits, allows you to figure the total amount of property tax, K-12 education expense, and earned income credits you may claim on Form IL-1040, Individual Income Tax Return.

What must I attach to Form IL-1040?

If you enter an amount on Form IL-1040, Line 17 or Line 28, you **must** attach Schedule ICR and any other required documentation listed in the "Step-by-Step Instructions" of this schedule to your Form IL-1040.

Am I eligible for a property tax credit?

You may figure a credit for the Illinois property taxes you paid in 2011 on your principal residence (not a vacation home or rental property) for the time you owned and lived at the property during 2010, if that residence was in Illinois. Nonresidents of Illinois may not take this credit.

You may not figure a credit for mobile home privilege tax, penalties, or fees included in your property tax bill, or the portion of the property that is deductible as a business expense.

Illinois property you purchased

You **may** figure a credit for Illinois property you purchased during 2010 providing you figure only that portion of your taxes that pertains to the time you owned and lived at the property during 2010. You may not take a credit for taxes you paid if the seller reimbursed you at the time of closing. You also may **not** take a credit on your 2011 return for property you purchased in 2011.

Illinois property you sold

You **may** figure a credit for Illinois property you sold in 2011 by combining the 2010 property tax paid in 2011, as well as a portion of the 2011 tax paid based on the time you owned and lived at the property during 2011. You may **not** take a credit on your 2011 return for property sold during 2010.

For more information, see Publication 108, Illinois Property Tax Credit.

Am I eligible for a K-12 education expense credit?

You may figure a credit for qualified education expenses, in excess of \$250, you paid during 2011 if

- you were the parent or legal guardian of a full-time student who was under the age of 21 at the close of the school year,
- you and your student were Illinois residents when you paid the expenses, and
- your student attended kindergarten (at a school that also has a first grade) through twelfth grade at a public or nonpublic school in Illinois during 2011.

You must complete Section B of Schedule ICR, including the K-12 Education Expense Credit Worksheet to claim this credit.

any receipts you received from your student's school.

If you home school your child(ren), see Publication 119, K-12 Education Expense Credit General Rules and Requirements for Home Schools.

receipts for education expenses.

If you are the parents or legal guardians of a qualified student and you are filing separate Illinois returns, you may each claim an education expense credit. However, you both may not claim a credit for the same expenses, and the total amount of credit claimed between both parents or guardians may not exceed \$500.

Qualified education expenses

Education expenses that qualify for this credit include

- tuition (including summer school classes meeting elementary or secondary graduation requirements).
- book fees covering the rental of books that were required as a part of the school's education program.
- lab fees covering the use of supplies, equipment, materials, or instruments that were required as part of a lab course in the school's education program.

For example, if you rented a musical instrument from the school (not from a business)

- for a class, or
 - for participation in an extracurricular activity that resulted in a credit toward completion of the school's education program,
- this rental expense qualifies as an education expense.

Education expenses that do not qualify for this credit include

- expenses paid to a daycare, preschool, kindergarten at a school that does not also have a first grade, college, university, independent tutoring service, or trade school.
- expenses paid for the purchase of supplies, books, or equipment that are not significantly used up during the school year (e.g., purchasing musical instruments, costumes for a play).
- expenses paid for the use of supplies, equipment, materials, or instruments if the program does not result in a credit towards completion of the school's education program.
- expenses paid directly to a business (e.g., renting a musical instrument from a music store).
- expenses for after school care, even if paid to the school.
- expenses paid for yourself or your spouse.

For more details, see Publication 132, Education Expense Credit General Rules and Requirements for Parents and Guardians.

Am I eligible for the Illinois Earned Income Credit?

If you qualified for a federal Earned Income Credit (EIC), you also qualify for the Illinois Earned Income Credit.

If you filed a joint federal return and you elected to file separate Illinois returns because one spouse is an injured spouse, you may each claim the earned income credit. However, the total federal credit reported on Schedule ICR, Line 10a for both spouses cannot exceed the EIC amount claimed on your joint federal return.
